

FALL PRIMARY CARE UPDATE CONFERENCE

**WEDNESDAY
OCTOBER 21,
2020**
7:00 AM - 4:30 PM
Live via Zoom

Our Fall WMOA Conference again will cover a variety of remarkable topics for the primary care practitioner. We will hear a Rheumatologist speak on the puzzling array of laboratory tests and the meaning of their results, a specialty presentation on Acne treatment in the pediatric population, an update on Multiple Sclerosis by neurologist, and evaluation and treatment of Resistant Hypertension by a Hypertension Cardiologist.

Additionally, there will be updates on treatment of Multiple Myeloma, Cancer Survivorship, lessons learned from Infectious Disease on the COVID pandemic and an OMM update on Shoulder conditions including hands-on experience with our presenter for those who preregistered.

The goal of the Fall Conference on these key medical conditions is to translate new or updated knowledge into informed approaches for the contemporary management of your patients. Enjoy!
